

Black Star Dancing

Noel Gallagher's High Flying Birds

[Verse 1]

If not for the mountains
Tell me who will stand tall?
If it's the money you're counting
Then I hope you got it all
Nature is dancing
And it makes me sweat
The echoes are clearing
But we ain't done yet
But we ain't done yet

[Chorus 1]

We can ride on
We can ride all night
(It's part of the game now)
And we can ride on
We can ride on
You make me shine like a black star dancing
(We're one and the same now)
??
??
??

[Verse 2]

If not for tomorrow
Can we live for tonight?
The future we'll borrow
It'll be alright
Nature is dancing
And it makes me sweat
The echoes are clearing
But we ain't done yet
But we ain't done yet [Chorus 2]
And we can ride on
We can ride all night
(It's part of the game now)
And we can ride on
We can ride all night
(We're one and the same now)
You make me shine like a black star dancing
(I can't remember your name now)
You make me shine like a black star dancing
You got it if you want it
You know you got it if you want it

??

??

??[Verse 3]

Nature is dancing
But we ain't done yet
Nature is dancing
But we ain't done yet
Nature is dancing
But we ain't done yet
Nature is dancing
But we ain't done yet
