

# Safe and Sound

## My Indigo

We all need to learn,  
Learn it the hard way raising the bar too high  
Missing that last midnight train,  
Getting our hearts broken in different ways  
If I only could, If I only could  
Let you dance around the pain  
If I only could, If I only could  
So it won't hit you in the face Make you strong like a lion, light as air, smart like a falcon  
To keep you safe and sound, keep you safe and sound. So you can climb any mountain, break  
any wall  
Find your way back home again  
Safe, safe, safe and sound  
To keep you safe and sound I'm with you, with every breath you take  
You learn it the hard way, you'll rise when dawn will break  
I promise with every step you'll take  
It will get lighter, lighter along the way If I only could, If I only could  
Let you dance around the pain  
If I only could, If I only could  
So it won't hit you in the face Make you strong like a lion, light as air, smart like a falcon.  
To keep you safe and sound, keep you safe and sound. So you can climb any mountain and  
break any wall  
Find your way back home again  
Safe, safe, safe and sound ... oh yeah To keep you safe and sound Eskimo kisses when you go to  
sleep  
You float into a world of make believe  
Love you to the moon and back again  
Keep my arms around you when you fall asleep  
No monsters are unbeatable for you and me  
Fear the day that I won't be around to keep you safe and sound  
Safe and sound  
Safe and sound  
To keep you safe and sound ... Make you strong like a lion, light as air, smart like a falcon  
To keep you safe and sound, keep you safe and sound. So you can climb any mountain and  
break any wall  
Find your way back home again  
Safe, safe, safe and sound. oh yeah To keep you safe and sound  
To keep you safe and sound
