## The Weeknd

Baby, you're no good  
'Cause they warned me 'bout your type girl  
I've been ducking left and right  
Baby, you're no good  
Think I fell for you, I fell for you, I fell for you  
You got me puttin' time in, time in  
Nobody got me feeling this way  
You probably think I'm lying, lying  
I'm used to bitches comin' right 'way  
You got me touchin' on your body  
You got me touchin' on your body  
To say that we're in love is dangerous  
But girl I'm so glad we're acquainted  
I'll get you touchin' on your body  
I'll get you touchin' on your body  
I know I'd rather be complacent  
But girl I'm so glad we're acquainted  
We're acquainted  
Baby, you're no good  
All my niggas think I'm crazy 'cause I'm thinkin' 'bout us lately  
But really if I could  
I'd forget about you, 'get about you, 'get about you  
You got me puttin' time in, time in  
Nobody got me feeling this way  
You probably think I'm lying, lying  
I'm used to bitches comin' right 'way  
You got me touchin' on your body  
You got me touchin' on your body  
To say that we're in love is dangerous  
But girl I'm so glad we're acquainted  
I got you touchin' on your body  
I got you touchin' on your body  
I know I'd rather be complacent  
But girl I'm so glad we're acquainted  
We're acquainted  
Momma caught me cryin', cryin', cryin', cryin'  
'Cause I won't find somebody that's real  
(She wants somebody that's real) yeah  
'Cause every time I try to, try to, try to run  
The fast life keeps gaining on me (fast life keeps gaining on me) shit  
But ever since I met you  
I couldn't believe what you did  
So comfort me babe, ain't no rush from me babe  
I'll keep on touchin' on your body  
I'll keep on touchin' on your body  
To say that we're in love is dangerous  
But girl I'm so glad we're acquainted

I got you touchin' on your body  
I got you touchin' on your body  
I know I'd rather be complacent  
But girl I'm so glad we're acquainted  
We're acquainted I'm not tryna talk at all  
'Cause I'm tryna love you crazy  
Put some more inside your cup  
And drink till you numb the pain  
I got you touchin' on your body  
These girls keep touchin' on their body  
They got accustomed to the life we live  
These girls born in the '90s are dangerous  
I got 'em thinkin' that they want me  
Although they know they not the only  
I got 'em wanting to embrace their sins  
These girls born in the '90s are dangerous
