

# Try It Out

[Kaya Stewart](#)

I'm too young to be messing around with people like you  
Too young to be on a scene always wanted to  
Not old enough to handle when life gets rough but I've always wanted to

Try it out

I find it daring to do it my way  
I think it's cool to act like it's show day  
I really dig when you don't even care cuz I've always wanted to

Try it out

Try it out

Singin'

Try it out

I think you're crazy and I kinda like that  
Life on the edge ditch the hard hat  
I think it's wild when you let down your hair  
Cuz I've always wanted to

Try it out

Try it out

Try it out

I don't need you to tell me how to look  
I don't need to read another book  
I don't need a pretty dress and nice long hair  
I've got a leather jacket that will take me there

Take me there

Take me there

Try it out

Try it out
