

Fan Girl

Michael Ray

Girl, I know how people feel
When they're watching their favorite band
Their whole world starts coming alive
And girl I can't hide it for real
I don't know if you understand
Looking at you kinda feels like when the lights go down
Got a ticket to the best show in town You give me that front-row feeling, screaming with my
hands up
Walk in the room and everybody stands up
You got my heart singing whoa oh oh oh
You steal my kisses and you steal the show, you know it
The way you work it, baby you're a natural
They love you in LA, NYC and Nashville
That leather jacket and blue jeans, I mean damn girl
I can't help it, baby I'm a fan girl
Got me in the palm of your hand girl
More than I can stand girl
Baby, I'm a fan girl Girl, when you're in my arms you shine like the brightest star
Give me the best night of my life kinda high
Being next to you kinda feels like when the spotlights glow
I want a T-shirt with your face on it, oh You give me that front-row feeling, screaming with my
hands up
Walk in the room and everybody stands up
You got my heart singing whoa oh oh oh
You steal my kisses and you steal the show, you know it
The way you work it, baby you're a natural
They love you in LA, NYC and Nashville
That leather jacket and blue jeans, I mean damn girl
I can't help it, baby I'm a fan girl Got me in the palm of your hand girl
More than I can stand girl
Baby, I'm a fan girl
Looking at you kinda feels like when the lights go down
Got a ticket to the best show in town You give me that front-row feeling, screaming with my
hands up
Walk in the room and everybody stands up
You got my heart singing whoa oh oh oh
You steal my kisses and you steal the show, you know it
The way you work it, baby you're a natural
They love you in LA, NYC and Nashville
That leather jacket and blue jeans, I mean damn girl
I can't help it, baby I'm a fan girl Got me in the palm of your hand girl
More than I can stand girl

Baby, I'm a fan girl
Yeah, I'm a fan girl
