## **Nighttime Hunger**

## **Overcoats**

Nighttime hunger eats at me
Like I'm supposed to be alone
Wished that he could fill me up, so that I could feel whole
Now there is something keeping me from falling asleep
Then each morning pulls me from the deep

When the darkness comes

W-w-w-when the darkness comes

When the darkness comes

W-w-when the darkness comes

When the darkness comes

W-w-when the darkness comes

Nighttime hunger and all the fears that it brings

Standing, fade in the light

In daytime I build a new me, but still dread the night
I try to keep moving, but I can't seem to chase my monsters away
When the darkness comes it takes everything from me
When the, when the, when the -

When the darkness comes

W-w-when the darkness comes
