## Canibus

Artist: Canibus f/ Free

Album: Can-I-Bus

Song: Patriots

Producer: Jerry Wonder

Time: 3.03(Canibus)

I make your bitch crew shit stools, I put a pistol  
in your mouth and pull, then I feed you to the Pit Bulls  
Don't even talk about guns

The only Nine you got, is a five dollar bill and four ones  
So I don't give a fuck what none of y'all niggers say  
Because anything that can't penetrate ricochets  
Rhyming with me on the record?

You might as well had died and went to Hell instead of Heaven  
'Cause my rhyme weapon is like a medieval torture method  
Your four limbs tied to four horses, all pulling in different directions  
In this profession I get busy without a question  
Seeing me is like seeing a vampires reflection

Fast or slow flows connect like electrodes  
I make cassette tape decks blow when I'm in wreck-mode  
Explode leaving areas abandoned

With more radiation behind than spots UFOs land in

(Chorus: Canibus (Pras) {Free})

(Is that all soldier?) Yes, sir!

(Is there anything you need?) No, sir!

(Report back to me before debriefing. At ease!)

Are you a Navy Seal? {Yes, sir!}

Then say it like you mean it!

Tell them who Free from the Navy Seal Team is!(Free)

Free be the one rocking shit, special operatives

Specializing in weapon diagnostics

My survival tactics be drastic like Rambo

I'm strangling niggers with my bow and arrow elastic

Whoever said you couldn't be five feet and thoroughbred

Never witnessed the cerebral cortex in my head

How many gigabytes does your hard drive hold?

Or does your hard drive fold once the signal hits the node?

Beyond mission control the theory behind your thought

Marie Antoinette behead me, I still rock

While you choke and suffocating off your own testosterone

I'm known for breaking levels down to valiums unknown

A specimen with extraterrestrial oestrogen

Kick your intestines in, sell your testicles to Mexicans

I bring the force like a nutcracker  
Annihilate rhyme hackers, Navy Seal linebacker  
The last Oedipus remains, unclaimed  
So if you buck against Free you better tattoo your name  
on your teeth, I disintegrate those that oppose  
Disintegrate hoes with they assholes in they nose  
I suppose you wanna run your mouth like a castagnette  
I put bitch niggers to rest in the bitch bassinet  
(Chorus: Canibus (Free)  
Is that all soldier? (Yes, sir!)  
Is there anything you need? (No, sir!)  
Report back to me before debriefing. At ease!  
Are you a patriot? (Sir, yes sir!)  
Then say it like you mean it!  
Tell them who Canibus from the Navy Seal Team is!(Canibus)  
I'm the meanest motherfucker on this whole Navy Seal team  
And I can kill anything if it bleeds or breathes  
Calling all bitch-ass niggers and bitch-ass bitches  
I got a Howitzer bigger than any Four-Fifth is  
Rapping is a raw business, but as an individual  
I'm as different as anybody's finger print is  
If boring is the norm, I'm the antonym  
Put me in the same category you would put Marilyn Manson in Bugging like a satanic  
evangelist  
Jogging butt naked down Sunset Boulevard in Los Angeles  
Every MC in your crew will get ruined or wounded  
You talk the bullshit and be too scared to do shit  
I'm the type of nigger that'll prove it, produce shit  
Spent so much time in the studio I had to move in  
A soldier, who practices West Indian Obia  
I can drink the poison from a King Cobra  
'Cause long after y'all are dead and gone  
I survive the nuclear holocaust like a roach arthropod(Chorus Pras (Canibus)  
Is that all soldier? (Sir, yes sir!)  
Is there anything you need? (Sir, no sir!)  
Report back to me before debriefing, at ease!
