

# Dirt Lip

## Big D and the Kids Table

shave it off! well i see too many of them  
walking around dirt on their face no hair to be  
found well they walk in malls and they walk in  
packs dirt on their lip and we can't have that,  
smoke look rough, look bad, look mean this  
media-tough kid only about 13 where the hell  
is mom, where the hell is pop get a razor blade  
this has gotta stop

{ dirt lip shave it off dirt lip it's gotta stop  
dirt lip just wait five years it's not a mustache,  
it's not a beard }

when i was a headbanger i got beat up five dirt  
lips yeah that was enough well i guess by now my  
mind's gone wack my friends say man you just gotta  
relax, soap helps dirt helps you keep clean to end  
dirt lips is now my dream if you see one walk by  
well just give 'em a smack i'll shave their lips and  
i'll shave their back {chorus} well i always wonder  
if they see it at all if they comb or groom it or just  
think it's bald, cause the hair on your lip is like the  
hair on my arm it's like the hair on a mole, so don't  
act so alarmed dirt lips taken all size and shape they  
can start at 9 and cover any age burn it, bleach it,  
nair it or just masking tape, just get rid of it all it's  
not too late {chorus}
