

Animus

Novembers Doom

...to the pedals, own the fight dont run out
Earn the city we walk for days
Drag the sun for the light we switch
we stole their hearts
we are hunting for the violins forTake it without wanting no morewith allowedDrag the sun for
the light we stand
Searching for the criminal how stole my heart
are hunting for the violins for
.Im hunting you down
Let you lay you down
The distance I travel so so far and so fast
My blood is o fly my way back
The flex of drums woke under his
and slowing flying now
if before me .just quit go home
and stay at the line .
And carry your lock on
I live and Im the best .i pray and get it the best
And when I find you may the God
