

Come Back When You Can't Stay

Parker Millsap

I was lookin' for a little thrill
Dinner, drinks, desert, the bill
I've got another love to kill
And I'm losing
I thought you knew the circumstance
Yes, I know we laughed and danced
Sweetheart, please put on your pants
And be moving
Come back when you can't stay so long
Call me when you're on the run
When there's nothin' on the TV on
When you wanna be home before dawn
Come back when you can't stay so long
I was lookin' for a little love
Pushin' for a little show
I wasn't dying for a doe
To give a dining
Why'd you have to go and stay?
Wrap me in your arms and sway?
Wake before the before the bells of day
Were chiming?
Come back when you can't stay so long
Call me when you're on the run
When there's nothin' on the TV on
When you wanna be home before dawn
Come back when you can't stay so long
Come back when you can't stay so long
Come back when you can't stay so long
