Empire of the Sun

Come on, let's play lost and found where secrets serve no one
Come a little bit closer now, no need to say it out loud
On the day you brought the sound in the way you turned me up
On the roads I belong, no, nothing could go wrong Oh, tonight I stepped out, the starlight
shining through
Angels calling us, we don't have too far to go
Rely on this now, the day I felt alone
Didn't wanna let you go, all we have is love to show Did a little on the darker side in the jungle
on the city block
We are just running high then I lift the fallen sky
Just when you wanted to give it, give it, give it up
