

# Brain On Ska

## Mustard Plug

Drinkin' in the pub just the other night  
This girl comes up to me and says "what would ya like?"  
I said another beer another pitcher or two  
Drank a few more rounds and the night was through  
This is your brain  
This is your brain on ska  
This is your brain, this is your brain on ska!  
Dancin' on the floor just hoppin' and skankin'  
D.J. on the mic won't stop crankin'  
Give me any music that'll move my feet  
Give me any music with a two-tone beat  
This is your brain  
This is your brain on ska  
This is your brain, this is your brain on ska!  
Pork pie hats, and Fred Perry shirts  
Drinkin' cheap beer and chasin' skirts  
But what it's really all about is plain to see  
Simply havin' fun and unity!  
This is your brain  
This is your brain on ska!  
This is your brain, this is your brain on ska!
