## **Human Target**

## **Six Feet Under**

My life, my soul My thoughts are my own

I live to die

That's why I was born

Kill or be killed

The law of the land

Standing tall, I'm not running scaredHuman targetScared, beaten

My bones were broken

Bruised, mistreated

For what I believe in

Survive or die

Fear for your life

I grip the gun tight

Three shots to the chest

One to the head

Standing tall, I'm not running scared

living through the violence

I'm just surviving - there's no way to end

This

One more dead, one survives

Instinct to live

Living through the violence

I'm just surviving - there's no way to end

This

Living through the violence

I'm just surviving - there's no way to end

This

One more dead, one survives

Instinct to live

I won't - die

My life, my soul

My thoughts are my own

I live to die

That's why I was born

Kill or be killed

The law of the land

Standing tall, I'm not running scared

Survive or die

Fear for your life

I grip the gun tightHuman Target
