

# Nothing More

## Guards

I was young, running free  
Nothing more, all I need  
Let them know who you are  
Don't look back, you'll go far  
Let's watch it all fall down  
Get up before we're down  
Moving up, never down  
Let's watch it all fall down  
Get up before we're down  
Moving up, never down  
What we do, what we choose  
Always win, never lose  
Make your mark, never leave  
Rip it all, let it bleed  
Let's watch it all fall down  
Get up before we're down  
Moving up, never down  
Let's watch it all fall down,  
Get up before we're down  
Moving up, never down  
But if you leave, I hope you do  
Take time to see the real truth  
And if you see me leaving too  
Just know I'm always there with you  
Let's watch it all fall down  
Get up before we're down  
Moving up, never down  
Let's watch it all fall down  
Get up before we're down  
Moving up, never down  
I was young, I was free  
Nothing more, all I need  
Don't forget who you are  
Just hold out, you'll go far  
I was young, I was free  
Nothing more, all I need  
Head up high, it's in the air  
Nothing's real, just pretend
