Sure Thing

St Germain

It's saturday night and it's a perfect night for dancin' I've had my makeup off and on all day But it's gotta be right for a night of sweet romancing And i've combed my hair at least a thousand ways Mirror mirror don't you tell a soul Of how i smiled and talked all day to you And how i practiced every step i know of But tonight's the night and i'm a dancing fool (it's a sure thing) when the sun goes down this evenin' (it's a sure thing) to be out on the dancing floor (it's a sure thing) i'll be the last one leavin' (it's a sure thing) gonna dance till i can't no more I could of had a date but i thought i'd take my chances I'm gonna dance with a different guy to every song Then i'm a gonna wait till the right one strikes my fancy The he's gonna be the one to dance me home Repeat twice
