

# Prelude - Nothin' to Hide

## Spirit

You have the world at your fingertips  
No one can make it better than you  
You have the world at your fingertips  
But see what you've done to the rain and the sun  
So many changes have all just begun, to reap  
I know you're asleep, wake up Swastika plug in your wear  
Jealous stars in your pants  
Top turning nothing to bear  
Except the view or the dare  
We got nothing to hide  
No we got nothing to hide  
We're married to the same bride  
We're married to the same bride She eats away from inside  
And we got nothing to hide  
Drink down it, a jug full of beer  
The bloated heads in your hands  
That's freezing the mouse trap is there  
He knows he's blown his last chance We got nothing to hide  
No we got nothing to hide  
We're married to the same bride  
We're married to the same bride  
She eats away from inside  
And we got nothing to hide  
We got nothing to hide  
No we got nothing to hide  
We're married to the same bride  
We're married to the same bride  
She eats away from inside  
And we got nothing to hide
