

# Erase Me (feat. NÉONHÈART)

## Said The Sky

Holding on to the fight  
But you'll never win  
Giving in to your mind  
But you're losing it, noAll the time you wasted, you fail again  
And over you replay it until it's faintErase me now and wash all my stains away (erase me now,  
erase me now)  
Erase me now and give me strength to stay (erase me now, erase me now)  
Erase me now and wash all my stains away (erase me now, erase me now)  
Erase me now and give me strength to stay (erase me now, erase me now)Getting drunk on the  
night  
But it's wearing thin  
And you're trying to hide  
But you're sufferingAll the time you wasted, you fail again  
And over you replay it, until it's faint  
Erase me now and wash all my stains away (erase me now, erase me now)  
Erase me now and give me strength to stay (erase me now, erase me now)  
Erase me now and wash all my stains away (erase me now, erase me now)  
Erase me now and give me strength to stay (erase me now, erase me now)
