

Slip Away

Paul Balancio

Days on days
I've been making ways
It's hard to fall when no one's there to hold you
It doesn't matter anymore
It's like I'm taken by a holy light that's bright
And it's like I'm standing tall the highest I imagine
Stupid me
How dumb of I
To think something small can be of such a disaster
Cause it means so much to believe
The sky is made of tiny things we cannot see
Or touch the voice inside inside my head
So nothing can be accomplished if the opportunity comes
When you're always wandering
And you let it slip away
Away Away
Slip away
Away Away
There are things
We want to be
People see that there are things that we don't need
Do you not agree
May be we need the time alone
Maybe it's the path that's shown
But there's one thing that's for sure
I'm in it alone
So nothing can be accomplished if the opportunity comes
When you're always wandering
And you let it slip away
Away Away
Slip away
Away Away
So nothing can be accomplished if the opportunity comes
When you're always wandering
So nothing can be accomplished if the opportunity comes
When you're always wandering
It's like I'm taken by a holy light that's bright
And it's like I'm standing tall the highest I imagine
