

Runaway

Ashanti

Time and time again I convince myself that we ain't over
Don't listen to my friends when
They say I'm a fool cause they don't know love
But then you go and do some shit that proves em all right
And each and every time I try to make it work

(I try to make it work)

But I just end up hurt

I tell you it's okay

Cause I don't wanna leave

(no no no no...)

But you make it so hard for me

To stay

So I'll run away

Every time I try to ignore but my mind just reminds me of you
And even if you try to move at another you'll finally do what I do
You've lied to me so many times I just can't take no more
You're dragging my heart on the floor I try to make it work

(I try to make it work)

But I just end up hurt

I tell you it's okay

Cause I don't wanna leave

(no no no no...)

But you make it so hard for me

To stay

So I'll run away

I try to make it work

(I try to make it work)

But I just end up hurt

I tell you it's okay

Cause I don't wanna leave

(no no no no...)

But you make it so hard for me

To stay

So I'll run away So here's what I wanna do baby

Instead of me fightin with you baby

I mean

I'mma let this shit breathe

Usually I don't look for nothing

Losing me with your lack of love

I had enough I try to make it work

(I try to make it work)

But I just end up hurt

I tell you it's okay
Cause I don't wanna leave
(no no no no...)
But you make it so hard for me
To stay
So I'll run away I try to make it work
(I try to make it work)
But I just end up hurt
I tell you it's okay
Cause I don't wanna leave
(no no no no...)
But you make it so hard for me
To stay
So I'll run away
