

Welcome to My Life

Empire of the Sun

Welcome to my life
its running on empty
its running on nothing you could be my love
if only you let me,
let me i love you all the things we've tried
darkness to golden
summer for winter if you love me back
i'll never grow hungry
i'll never be lonely
your started somethin' great
I know I really feelin' in my veins.
never gonna be the one you hate
'cause i know how to stay away from pain i could offer life throughout the sense
I can see this dynamite in your eye
Just she's walking up, baby closer now
makin' everythin' so emotional
I could be pleasure and pain for you you complet my life
the moment i met you
the love i confessed to your started somethin' great
I know I really feelin' in my veins.
never gonna be the one you hate
'cause i know how to stay away from pain
i could offer life throughout the sense
I can see this dynamite in your eye
Just she's walking up, baby closer now
makin' everythin' so emotional
I could be pleasure and pain for you
