

Voodoo

Black Sabbath

Say you don't love me, you'll burn
You can refuse, but you'll lose, it's by me
Say you don't want me, you'll learn
Nothing you do will be new 'cause I'm through
Oh Call me a liar, you knew
You were a fool, but that's cool, it's all right
Call me the devil, it's true
Some can't accept but I crept inside you
So if a stranger calls you
Don't let him whisper his name
'Cause it's voodoo
Fade into shadow, you'll burn
Your fortune is free, I can see it's no good
Never look back, never turn
It's a question of time till you're mine and you learn
So if a stranger sees you
Don't look in his eyes
'Cause he's voodoo
Say you don't love me, you'll burn
You can refuse, but you'll lose, it's by me
Say you don't want me, you'll learn
Nothing you do will be new 'cause I'm through
Voodoo
Bring me your children, they'll burn
Never look back, never turn
Cry me a river, you'll learn
Voodoo
