

I Dream of Spring (KCRW - Live from Malibu PAC)

[k.d. lang](#)

She arrives like autumn in a rainstorm
The threat of thunder above
I'll return from the streets of Melbourne
I'll return my love This world is filled with frozen lovers
The sheets of their beds are frightfully cold
And I've slept there in the snow with others
Yet loved no others before These cold dark places, places I've been
In cold dark places, I dream of spring This world is filled frozen lovers
The sheets of their beds are frightfully cold
And I've slept there in the snow with others
Yet loved no others before
These cold dark places, places I've been
In cold dark places, I dream of spring
In cold dark places, I dream of spring
