

What I've Waited for (feat. D. Brown)

Vicetone

Close your eyes
Seek paradise
Won't change your mind
Can't shake the light
I'll take the chance and roll the dice I want it all
Just for the night
I'll live it out
Like I'll never die
I lose my head
In the starry skies
Can't chain me down
I feel so alive
Back down only one way out
I let you run my life
Now you won't get me down
Untamed guess I lost my mind
You turned me inside out
No one can stop me now So turn up the light
Turn up the light This is what I've waited for
Cause the clock keeps ticking
Hard for me to keep up
I can't take it no more Cause the time keeps turning
Feels just like it speeds up
It's what I've waited for
It's what I've waited for
Close your eyes
Seek paradise
Won't change your mind
Can't shake the light
I'll take the chance & roll the dice Just wanna feel
The stars surround
The atmosphere
Never to come down
I'll stand alone
Whether right or wrong
It takes me home right where I belong Back down only one way out
I let you run my life
Now you won't get me down
Untamed guess I lost my mind
You turned me inside out
No one can stop me now So turn up the light
Turn up the light This is what I've waited for

Cause the clock keeps ticking
Hard for me to keep up
I can't take it no more This is what I've waited for
Cause the clock keeps ticking
Hard for me to keep up
I can't take it no more
Cause the time keeps turning
Feels just like it speeds up
It's what I've waited for
It's what I've waited for
