

# Baptized

## Daughtry

It's safe to say I'm lost  
without you in my arms  
So I call your name and I pray you might  
Come and watch over me like the pale moonlight  
Until the sun comes back around. Take me down, take me down by the water, water  
Pull me in until I see the light  
Let me drown, let me drown, in you honey, honey  
In your love I wanna be baptized.  
Take me down, take me down by the water, water  
I wanna be baptized.  
And the days and nights are cold  
Without your body to hold  
So I close my eyes hoping you'll appear  
Cause it feels like grace everytime you're near, yeah  
Don't leave, when the sun comes back around. Take me down, take me down by the water, water  
Pull me in until I see the light  
Let me drown, let me drown, in you honey, honey  
In your love I wanna be baptized.  
Take me down, take me down by the water, water  
I wanna be baptized. Take me down, take me down by the water  
Pull me in until I see the light  
Let me drown, let me drown, in you honey  
In your love I wanna be baptized.  
Take me down, take me down by the water, water  
Pull me in until I see the light  
Let me drown, let me drown, in you honey, honey  
In your love I wanna be baptized.  
Take me down, take me down by the water, water  
In your love I wanna be baptized  
Let me drown, let me drown, in you honey  
I wanna be baptized.
