

Disaster (2018)

JoJo

I'm trying not to pretend that it wont happen again, and again like that

...

Never thought it would end, cuz you got up in my head, in my head like that
You made me happy baby, love is crazy, so amazing

...

But it's changing, rearranging
I don't think I can take anymore
Cuz the walls burned up and our love fell down And it turned into whatever, now we're saying
never

Feel the fire cuz it's all around and it's burning
For forever and always
We gotta let it go, be on our way
Live for another day, cuz it ain't the same, my baby
Watch it all fallin to the ground
No happy ever after, just disaster

...

I didn't want it this way, I only wanted to say
I loved you right
But now you walkin away, and leavin me here to stay
So foolish of me to wait for you to realize
All the things I gave you, made you, change you
Your dreams came true
When I met you, now forget you
Don't want anymore

Cuz the walls burned up and our love fell down
And it turned into whatever, now we're saying never Feel the fire cuz it's all around and it's
burning

For forever and always
We gotta let it go, be on our way
Live for another day, cuz it ain't the same, my baby
Watch it all fallin to the ground
No happy ever after, just disaster
You shot the bullet, you shot the bullet that killed me
Not feeling my heart beat, and I was dyin
I I've been through it, I I've been through the agony
And now my eyes are, dryin, tryin, no more cryin

...

Lyin's just a game
So disaster strikes and I'm all right
Cuz my loves on his way

...

Yeah

Burning for forever and always

...

Cuz the walls burned up and our love fell down
And it turned into whatever, now we're saying never
Feel the fire cuz it's all around and it's
burning
For forever and always

We gotta let it go, be on our way
Live for another day, cuz it ain't the same, my baby
Watch it all fallin to the ground
No happy ever after, just disaster

The walls burned up and our love fell down
And it turned into whatever, now we're saying never
Feel the fire cuz it's all around and it's burning
For forever and always

We gotta let it go, be on our way
Live for another day, cuz it ain't the same, my baby
Watch it all fallin to the ground
No happy ever after, just disaster

Just disaster
Oh whoa! Burnin for forever and always
Always, yeah

...
