

Undertone

Couros

Stay a little longer
Let me lay my head upon your chest
That gentle roll of thunder
Like trees shaking
(This waves breaking)
There's something bout your sound
Wanna hold you to listen
There's something bout your sound
Wanna hold youThere's an ebb and flow
When you hold me close
Want to stay home
Listen to you undertone
Feel it in my bones
When you hold me close
Want to stay home
Listen to you undertone
Bathing in the shallows
I hold you like a shell
Against my ear
You're the perfect pillow
Slow motion
That deep ocean
There's something bout your sound
Wanna hold you to listen
There's something bout your sound
Wanna hold youThere's an ebb and flow
When you hold me close
Want to stay home
Listen to you undertone
Feel it in my bones
When you hold me close
Want to stay home
Listen to you undertone
Your silence colours me
And your silence colours me
And your silence colours me
Your silence colours me
Listen to you undertoneThere's an ebb and flow
When you hold me close
Want to stay home
Listen to you undertone
Feel it in my bones

When you hold me close
Want to stay home
Listen to you undertone
Listen to you undertone
Listen to you undertone Your silence colours me
And your silence colours me
And your silence colours me
Your silence colours me
