

# Suzerain

## Anthrax

It's everything, what's wrong with it?  
It's everything, what's wrong with us? Null, rictus grin, beyond death  
And it's after  
Me, so insane, suzerain  
And he's calling Nothing is over, nothing is over, nothing is over, nothing is over  
Come see, with me as everything turns  
Nothing is over, nothing is over, nothing is solved it only starts over  
You'll see with me as everything burns  
What comes after  
What comes after me  
A history, of love and pain  
In this story it's all the same  
Void, rictus grin, stand in sin  
Rule the rulers  
Blood, on the plains, suzerain  
And he's screaming Nothing is over, nothing is over, nothing is over, nothing is over  
Come see with me as everything turns  
Nothing is over, nothing is over, nothing is solved it only starts over  
You'll see with me as everything burns  
Nothing is over, nothing is over, nothing is over, nothing is over  
I'll be set free, free from this memory  
What comes after  
What comes after me  
Nothing is over, nothing is over  
You'll see with me as everything burns  
Nothing is over, nothing is over, nothing is over, nothing is over  
I'll be set free, free from this memory  
What comes after, what comes after me
