

Statues of Ourselves

Semi Precious Weapons

Dance me face to face
While I finger your ribcage
Dance me face to face
While I finger your ribcage I've got a filthy mind, love
She's got those laser light gloves
Thursdays 3 a.m.
We dance like fucking legends She spins the record open
We're gonna dance it broken
You know we always will
'Cause love could get us killed No, we don't know if this will live
So we're gonna build
No, we don't know if this will live
Our own legends
We're gonna build statues of ourselves
We're gonna build statues of ourselves Darling, boys all love her
Help her keep her cover
Someone turn on the fog
Before the next song Love breeds only love, love
Magnetic kicked the bad stuff
Thursdays 3 a.m.
We dance like fucking legends No, we don't know if this will live
So we're gonna build
No, we don't know if this will live
Our own legends We're gonna build statues of ourselves
We're gonna build statues of ourselves
We're gonna build statues of ourselves
For us and no one else
Dance me face to face
While I finger your ribcage
Dance me face to face to face
While I finger your ribcage Dance me, dance me face to face to face
While I finger your ribcage No, we don't know if this will live
So we're gonna build
No, we don't know if this will live
Our own legends We're gonna build statues of ourselves
We're gonna build statues of ourselves
We're gonna build statues of ourselves We're gonna build statues of ourselves
We're gonna build statues of ourselves
We're gonna build statues of ourselves We're gonna build statues of ourselves
Come on, come on, come on
Build statues of ourselves
We're gonna build statues of ourselves

For us and no one else
