

Five and Dime

Joshua Radin

Everyone in is town
Saying the same thing
Wait 'til tomorrow
See what that brings Moon rises
n brings surprises to this small town Tryna wait tonight
Til the midnight Talks her loud
Remember the simple times When a girl was on her own
And the world was full of charm
And the sun was coming up
To a better day
She says take me back
To a time i knew before
Before I open
My eyes and knew
I wanted more And it waits the line
Of five and dime The man stare, she says
She doesn't mind You set miles to feet
And she wears it on the sleep
And remebers the day she said
She was gonna leave She says take me back
To a time I knew before
Before I open my eyes and knew
I wanted more
Uuh, it's doubt to follow
Time's not easy to swallow
We're all lone for yesterday We said take us back
To a time we knew before
Before I open my eyes and knew
I wanted you
