

Long Live

Atreyu

...

Go

We say this means forever
Can't cut the "chord" and walk away
No special ceremonies
Seeking their approval, no not today
We're not gonna hear it!
You're full of shit!
Our desires burning brightly
We're still hungry getting after it
A symbol of promise and of light
When we were wandering lost in the dark
Somehow we'll make it through the pain
Rise back up when we fall down
(We'll fight!)
Our bond is forever lasting
Forever lasting
Smash
Move
Go Stamp your feet
To the sound of our eclectic heartbeats
Dance
Push
Rage, feel the heat
Kill the background music
A symbol of promise and of light
When we were wandering lost in the dark
Somehow we'll make it through the pain
Rise back up when we fall down
(We'll fight!)
Our bond is forever lasting

...

The past is the past
What has been done is set to stone
The future is all we have
We are the ones who set the tone

...

And if I should fall
The ground won't touch me at all
We're up in arms
Side by side
Linked in our souls

...
Our bond is forever
Our bond is forever
A symbol of promise
When we were wandering lost in the dark
Somehow we'll make it through the pain
Rise back up when we fall down
(We'll fight!)
Our bond is forever lasting
Our bond is forever lasting
Our bond is forever lasting
