

The One

Tracy Bonham

I sleep the day away giving you all I can
Ready to reach new lows
Dying to wash my hand You're the one
You're the one
That froze the sun
Say you love me as you pull the trigger
Better today rather than tomorrow Heaven is in the air hiding behind your blinds
Heaven is right out there leaving me here behind
You're the one that froze the sun
Say you love me as you pull the trigger
Better today rather than tomorrow You should enjoy the weather
Soon you'll burn with what you've done You'll hurt no one
You'll hurt no one
You'll hurt no one I sleep the day away giving you all I can
Ready to reach new lows
Dying to wash my hand You're the one
You're the one
That froze the sun
Say you love me as you pull the trigger
Better today rather than tomorrow
You're the one
You're the one that froze the sun
Say you love me as you pull the trigger
Better today rather than tomorrow
