Loved by U (feat. Ria)

Melih Aydogan

Wanna be loved by you
Wanna be loved by youYou told me to believe
You told me to leave
What do you mean it

Where I can go

You told me to move

You told me to go

How can I live

Without our loveThere is something on my way that I can't ignore Yeah it's OK but my heart is like never before

There is something on my way that I can't fix it

Yeah you know this love is hard but I can't never risk it

Babe can you hear me

Babe can you hear me

Babe can you hold me

Tonight I'm falling for youYou told me to believe

You told me to leave

What do you mean it

Where I can go

You told me to move

You told me to go

How can I live

Without our loveWanna be loved by you

Wanna be loved by you

You told me to believe

You told me to leave

What do you mean it

Where I can go

You told me to move

You told me to go

How can I live

Without our love
