

# Psycho Lovers

## Local Natives

When the sun that covers me  
I let a lifetime go  
Then all we want  
Is a love to lean on And we just learned how to breathe  
And L.A. falls into the sea  
Then all we want is a love to lean on We won't give up  
Paradise  
Heaven wants us alive  
Psycho lovers out of our minds  
Heaven wants us alive  
I've got a violence in my dreams  
I've got a makeup on my teeth  
We're all hysterical for love  
A love to lean on We won't give up  
Paradise  
Heaven wants us alive  
Psycho lovers out of our minds  
Heaven wants us alive When the light that covers us  
We let a lifetime go  
And all we want is for love to be enough  
We won't give up  
Paradise  
Heaven wants us alive  
With or without human doubt  
Heaven wants us alive
