

Let's Do It Again

Chris Webby

I've had some of my best times chillin' at the bar yo
Doing stupid shit, that I won't remember tomorrow
Waking up confused, still wearing my shoes
Thinking back like "Yoo What the fuck did I do?!"
Nights like this started with a pre-game
Give me ---- record, now I'm the DJ
Playing what I wanna hear, none of the Pop Shit
Give me the Big L, Wu Tang and Pac shit
Drinking till I'm buzzing like my phone's on vibrate
Taking another shot just to clear my mind state
Now im feeling good, never any less
So I'd like to welcome you to "Project X"
Yeah yeah yeahh

All you need is that 5 Dollars for a cup and you can party 'till the sun comes up

12am: On the way to the house

5am: We'll be kicking y'all out

6am: We'll be falling asleep

Like 10pm: It's on me to do it againLet's do it again

Let's do it again

Let's do it, Let's do it, Let's do it again

Let's do it again

Let's do it again

Let's do it, Let's do it, Let's do it again

And I don't wanna push my luck

Cause I'm already so drunk

I just do my dinner up (Motherfuck? it)

I've been trained to be a weekend - boy

So the puke and rally , of course sir

Living on the border

There is no oder option

Even if the memory's making us all forgotten

I'll be sipping my [??]

I'm mid twenties, drinking like I'm 18 back in Highschool

Is that a Problem?

Na man, this is not a race

Imma have my fun now [???

Cause for years I've been living this exact same way

I'm like ---- in Groundhogs' day12am: On the way to the house

5am: We'll be kicking y'all out

6am: We'll be falling asleep

Like 10pm: It's on me to do it againLet's do it again

Let's do it again

Let's do it, Let's do it, Let's do it again
Let's do it again
Let's do it again
Let's do it, Let's do it, Let's do it again
It's getting late now, late as the night ----
Girl under my left arm, bottle in my right hand
Everybody's drunk now, most of them are passed out
Reach into my back pocket and pull a bag out
Then finally the ---come around
Blunt ride back and burn the fuck down
Getting so high, that my contacts dry
Put the visine in my eyes
So go and live your lives, we'll only get to do it once
Have some fun with it yo
Everybody loosening up, go and do some stupid stuff
Isn't that what's life about?
Man I'm having fun and if you not, then you should try it out
12am: On the way to the house
5am: We'll be kicking y'all out
6am: We'll be falling asleep
Like 10pm: It's on me to do it again
Let's do it again
Let's do it, Let's do it, Let's do it again
Let's do it again
Let's do it again
Let's do it, Let's do it, Let's do it again
12am: On the way to the house
5am: We'll be kicking y'all out
6am: We'll be falling asleep
Like 10pm: It's on me to do it again
Let's do it again
Let's do it, Let's do it, Let's do it again
Let's do it again
Let's do it again
Let's do it, Let's do it, Let's do it again
