Right On

OMC

Oh, do you remember When we were young? We just had funPedal to the metal, shine into the steel Sitting up front, Elivisi by the wheel Putting out of Island Bay, weather looking fine Flick the switch, needle twitch, FM to the dialBuddy Toledo singing to the songs Watching all the P? s and Q? s, nothing can go wrong Dino Valentino and his lady, flashes cash as the deals go by So good to be alive, right on, right onOh, do you remember When we were young?

We just had fun

Pieces to the puzzle, music is the word Franko? s on the show, flying out the bird Somersaults and figure eights, breaking all the rules

Pushing all the pushers, The King of the New SchoolBuddy Toledo fronting on the stage Pacifies the masses with a smile and a wave

> Dino Valentino and his lady counts the cash as deal goes by So good to be alive, right on, right onOh, do you remember

> > When we were young?

We just had funOh, do you remember

When we were young?

We just had funOh, do you remember

When we were young?

We just had fun

Oh, do you remember

When we were young?

We just had funOh, do you remember

When we were young?

We just had fun
