

True Love

Balthazar

No matter what, it always seems
to find its way, into my dreams
no matter what, it's how I make
A thousand variations of the same mistake
No matter how, it's the same old thing
you got me trapped in my freedom again
so get it done, however may be
but anyway don't you go soft on me
come on
just let it all out tonight
come on
girl
the more precise your plan has been
the more chaotic when lust kicks in
but anyway we shouldn't be surprised
how can true love ever be civilized
come on
just let it all out tonight
come on
girl
why, why should we wait
why should we hide
from the confrontation
with the light
come on
just let it all out tonight
come on
girl
