

# R.A.N.

## Miguel

[Verse 1]

Razor blade a heart string  
Who you tryna fix now?  
Broken record left on repeat  
Another buildup to the let down, the let down  
Steady speedin' to a new pain  
Tragic collision on the 110  
And I wish that you would slow down  
'Cause maybe then you'd see it comin'  
I'm sayin'

[Chorus]

Have you, you ever (Have you ever, ever)  
Ever fucked with a real nigga (yeah)  
Real ass nigga before?  
I know you're so tired of  
Feeling like you deserve better  
You need a real ass nigga like me, yeah  
Like me, baby  
Oh, right now  
Yeah, yeah

[Verse 2]

Empty chargers, pages torn  
Hanging on to every word  
Tequila shots to balance all the sweetest lies that I can burn  
How long were you waiting?  
Will you take me 'fore you give up  
Rules are meant to break in here  
Hearts are meant to break in love  
(You) way too smart for this  
(You) but your problem is  
(You) you don't know badder, babe  
(You) it's so much better, babe  
(You) runnin' to the darkness, but you lookin' for the light  
Searchin' through the city for what's been here all this time [Chorus]

Babe, I love you

You are fire

(Have you ever done and done and done)

Ever fuck with a real nigga

A real ass nigga before?

You wasted time searchin'

But we both know that you deserve better

You need a real ass nigga like me, yeah

Love me, baby  
Oh, babe[Bridge]  
Respect you too much not to be one hundred with you  
You deserve the world and me running with you  
You know we always been connected  
I ain't perfect  
Baby, you should always feel protected  
I'm saying[Chorus]  
Have you, have you ever  
Ever had a real man, baby?  
Even had a real man like me?  
And I know you  
Know you searchin', baby  
You know you deserve, you deserve better  
You deserve better, ooh[Outro]  
(Have you, you ever) Ooh  
(Ever fuck with a real nigga)  
Gotta keep it one hundred with you, oh yeah  
(A real ass nigga before)  
With someone like me  
(I know you keep searchin')  
(Cause you know that you deserve better)  
(Need a real ass nigga like me, yeah)  
For real, though
