

Count the Hours (feat. Nevve & Kastilione)

BEAUZ

Count the hours
Count the hours
I'm waiting through the shallows Just waiting for a sign
It's dark under the clouds tonight You know I count the hours
I'm waiting every second
Till you realize
Through the lows and the highs
I'm the one You had to find
Will you realize I'm the one You had to find?
To find
You know I co-o-o-o-o... You know I oh You know I play until, play until
You know I oh I used to know just what I needed
Figures in the light
But now I'm struggling to survive the collide You know I count the hours
I'm waiting every second
Till you realize
Through the lows and the highs
I'm the one you had to find
Will you realize I'm the one you had to find?
To find
You know I co-o-o-o-o... You know I oh You know I play until, play until
You know I oh
