

No Matter What You Do

Benny Benassi & The Biz

Tell me what your spirit says

show me what you pray

teach me every single part

I'll be your guide

you are a prisoner

looking for to be.

you can change your face

but can't change your mind

no matter what do you do

no matter what do you do

no matter what do you do

no matter what do you do

no matter what do you do

no matter what do you do

no matter what do you do

Tell me what your spirit says

show me what you pray

teach me every single part

I'll be your guide

you are a prisoner

looking for to be.

you can change your face

but can't change your mind

no matter what do you do

no matter what do you do

no matter what do you do

no matter what do you do

no matter what do you do

no matter what do you do

no matter what do you do

Tell me what your spirit says

show me what you pray

teach me every single part

I'll be your guide

you are a prisoner

looking for to be.

you can change your face

but can't change your part

no matter what do you do

no matter what do you do

no matter what do you do

no matter what do you do

Tell me what your spirit says
show me what you pray
teach me every single part
I'll be your guide
you are a prisoner
looking for to be.
you can change your face
but can't change your mind
no matter what do you do
no matter what do you do
no matter what do you do
no matter what do you do
no matter what do you do
no matter what do you do
no matter what do you do
no matter what do you do

no matter what do you do
Tell me what your spirit says
show me what you pray
teach me every single part
I'll be your guide
you are a prisoner
looking for to be.
you can change your face
but can't change your mind
no matter what do you do
no matter what do you do
no matter what do you do
no matter what do you do
no matter what do you do
no matter what do you do
no matter what do you do
no matter what do you do
no matter what do you do
