

Geeks

Hailey Knox

Just take a look at us (mm)
Aren't we ridiculous?
It's safe to say we've got no kind of sense, yeah
Just take a peek at us
the freaks on the mini bus (mmm)
The geeks you like to throw in the fast, yeah
you know it really hurts and you love it,
you know it really hurts
but we'll rise above it
you know it's gonna hurt.
woahh we know what we're worth
and you'll get what you deserve
when all the geeks inherit the earth.
hey aren't we absurd? (mmm)
we're just a bunch of nerds,
it's safe to say you're so much cooler than that
so take your punctured love
go ahead and steal our lunch from us,
we'll take the blow and play our part in the act, yeah.
You know it really hurts and you love it,
you know it really hurts but you can't show it
right where it really hurts.
Woahhhh we know what we're worth,
and you'll get what you deserve
when all the geeks inherit the earth yeah
you toss your sticks and stones
and we'll just lick our wounds
we wear the under dog
pay back is coming soon,
don't blame the universe when the calm is reburst
just look at yourself and woahhh take a look at us, yeah
and then you'll know what's up
cause woahh we know what we're worth
and you'll get what you deserve
and all the geeks inherit the earth, yeah
oh woahhh we know what we're worth
we'll all go from last to first
when all the geeks inherit the earth, yeah
