You can see the look in my eye

Ain't gonna stop anytime soon

Wrote a whole new book while I cry

Me and my team all flowers set to bloom

Can't stop till we reach the sky

We the type to lay on the cloud

sing to the moon

meet the sun real soon

Our thunder, bout to boom

Dancing with Lightning

For some may seem frightening

We find it exciting

To dance in the lightning

Dance

Light strikes

Darkness ignites

Karma bites

New days new nights

Take action, seek sight

We are gonna win this fight

Ill die for the wrong to get right

And you better believe that everybody gonna be alright

V3

The suns fire pounds in the heart

Every target hit with our love dart

Measure this we above chart

Treasure this we can win smart

Not average, see we invent

Unsavage with our intent

Rain falls, wash away

Owls call, better prepare in the lair for a whole new dayV4

And when you feel it, don't conceal it

Scream in bliss you are it  
Piece of god and goddess  
Seek calm amidst fits  
Realize the cosmic trick  
We are bread as slaves in a prism  
Open your mind to the system  
we all been dead and spinnin  
Get our the box of this prison  
Ain't no body got time for you to just sit there wishin  
Dancing with Lightning, I am  
Dancing with Lightning, you are  
Dancing with Lightning, we are  
Dancing, Dancing, Dancing
