

Stamped Ideas

Iron Butterfly

You stay away from people made from plastic in a mold
And keep your stamped ideas inside your head untold
Because I, I, baby, am protecting you against the
The kind of things that other people do now
I, baby, am protecting you 'cause I'm in love with you
So come on, baby You stay away from people made from plastic in a mold
And keep your stamped ideas inside your head untold
Because I, I, baby, am protecting you against the
The kind of things that other people do now
I, baby, am protecting you 'cause I'm in love with you
So come on, baby
