

# Sober Me Up

Frankie Ballard

This crazy life can mess you up  
It's like a bottle of wine  
Well, too much us gonna get your drunk  
And cloud up your mind Well, chasin' all these dreams down  
Could sure keep you stoned  
And lately I've been stumblin' 'round  
I've been out of control Well, I've been runnin' low on love  
And high on livin'  
And, baby, I need you to come  
And stop the room from spinnin'  
Sober me up and bring me back down  
Help set my feet on solid ground  
You settle my soul with just one touch  
Clear my head, baby, let your sweet love  
Sober me up Well, I can get carried away  
I can take things too far  
Been tryin' to find myself an easy fix  
Put Band-Aids on scars I need to snap out of this state  
That I'm in  
Remember what matters  
And think straight again But, baby, when you kiss me  
All the demons seem to disappear  
And, girl, it's scaring me to think  
Of where I'd be without you here  
Sober me up and bring me back down  
Help set my feet on solid ground  
You settle my soul with just one touch  
Clear my head, baby, let your sweet love  
Sober me up, baby Yeah  
Sober me up and bring me back down  
Well, help set my feet on solid ground  
You settle my soul with just one touch  
Clear my head, baby, let your sweet love  
Sober me up Whoa, yeah, baby
