

# Come Over

Faith Evans

Won't you come over and make love to me  
'Cause I haven't seen you in a while  
Really miss your smile, oh  
Won't you come over and make love to me  
Baby I want you Every time we're together, I feel a special part of me  
Drawing me closer, closer to you, baby  
I can't explain it's just the magic that we share  
Something between us two Won't you come over and make love to me  
'Cause I haven't seen you in a while  
Really miss your smile, oh  
Won't you come over and make love to me  
Baby I want you  
Sitting here in my window  
Thinking of nothing but your face, oh, baby  
I try to remember how it used to be  
When you used to love me  
Love me everyday, oh baby I don't wanna fight ya, I just want you to see  
That you are the one, the only one that's for me  
Baby, let me show ya, there's no greater love  
Baby, I love you for the things you do  
And I want you to come over You come over and make love to me  
'Cause I haven't seen you in a while  
Really miss your smile, oh  
Won't you come over and make love to me  
Baby I want you  
I don't wanna fight ya, I just want you to see  
That you are the one, the only one that's for me  
Baby, let me show ya, there's no greater love  
Baby, I love you for the things you do  
And I want you to come over You come over, won't you come over  
Baby I just wanna make sweet love  
Just wanna show you, you are the one  
Won't you come over, won't you come over  
Baby I just wanna make sweet love  
Just wanna show you, you are the one Won't you come over, won't you come over  
Baby I just wanna make sweet love  
Just wanna show you, you are the one  
Won't you come over, won't you come over  
Baby I just wanna make sweet love  
Just wanna show you, you are the one Won't you come over, won't you come over  
Baby I just wanna make sweet love  
Just wanna show you, you are the one

Won't you come over, won't you come over
