

Don't Stop

Kellee Maize

[Verse 1]

I'm not really into clocks, the time I wanna stop
The seconds turn to hours someones running from the cops
They're chillin on the block, sellin the crack rock, the government sold it
And they they watched the ghetto flock
Without another choice, the poor they lost their voice
Feignin for the beamer hummer escalate and royce
But violence has to end
The bling is just a trend, the babies payin for it
Losin women and men, and now we see the light
Forget the wrong and right
If we don't join our hands we're gonna go and lose the fight
I'm tellin all the girls, somebody tell the men
The ladies takin over girl power is gonna win
We balance sun and rain
He hustled while I sang
And now it sees we rhymin on the pulpit
Yin and yang
And this is what I'm not
I can't support the glock
I'm protected by a force and we will make the violence stop

[Chorus]

Don't you stop it
Don't you
What you doin
Don't you stop it
Don't you
What you doin
(La la la la, la la la, la la la la, laha)
Just hang on to,
Be strong through
Wont be long, ohoooho
Don't you stop it
Don't you stop what you doing
What you doin
Just Hang on to,
Be strong through
Won't be long, ohoooho
(LaLa la la la la la, la la la la la, lalalaaa)

[Verse 2]

You can follow my lead
And drop the guns concede to feel a higher power

And see that you are me
And know that I am you
Duality is two and we are all the same
And I am he and he is you
And when we all decide, in faith we will confide
The universe will open up and it lets us inside
Till then on ground I walk, this girl ain't just all talk
My head be in the clouds the spirit
Singing while I sulk
About all of the problems, I feel like I could solve them
But I'm-a-need alotta help can we start evolving
Yes we are evolvin
DON'T STOP[Chorus]
Don't you stop it
Don't you
What you doin
Don't you stop it
Don't you
What you doin
(La la la la, la la la, la la la la, laha)[Outro]
Just hang on to,
Be strong through
Wont be long, ohoooho
Don't you stop it
Don't you stop what you doing
What you doin
Just Hang on to,
Be strong through
Won't be long, ohoooho
(LaLa la la la la la, la la la la la, lalalaaa)
