

# Find Me (feat. Dion Timmer & Excision)

## Datsik

Stop chasing all the city lights  
Breath me in, go on and take a bite  
Count on me to make you come alive  
You know where to find me tonight  
You know where to find me tonight  
You know where to find me tonight  
You know where to find me tonight  
You know where to find me tonight  
lights  
Breath me in, go on and take a bite  
Count on me to make you come alive  
You know where to find me tonight  
You know where to find me tonight  
You know where to find me tonight  
You know where to find me tonight  
This shit's about to get heavy  
You know where to find me tonight  
You know where to find me tonight
