

Extra Wavy

Social Club Misfits

This song is loud and offensive
I need a eagle on my arm like im Ghostface
Stack a bunch of paper up untill i get my own place
Im not bragging
I dont want my parents as my roommates
Money that i get i spend
I didnt spent much time in clubs unless you say the one im in:
The Social Club
Before i met my girl swear i'd pray so much
I used to rap about my exes, now im growing up
No more time to waste on stupid things
Nothings new to me
I keep these rappers on a lossing streak
They ask us how we do it
Asks us how we do it, woo!
Misfit gang gang
You know how we move it, woo! (Gang gang gang)
They ask us how we do it, woo!
Misfit gang gang
You know how we move it, woo!
I tell 'em i been up since this morning
No problem, no presure
Im not even yawning, im ready
On my second cup of coffee already
Up in my lane like Andretti
Streets do not love you, they deadly
And so many debts and you get it already
But he throw these words in a [?] melody
Traffic jam is a felony
Another rap is a [?]
MTV on the TV screen
[?] hole in me, heavenly
That is that music that be having your kids coming back home at night
We tell them [?] how'd it feel?
Put your trust in god
[?] over other frauds
Only one, there no other god
Team work make the dream work
So we all in while the others watch
Social club rearrange the game
It was right on time, check your other watch
This here'll be the biggest ever

Might just park a tour bus on the block
They ask us how we do it
Asks us how we do it, woo!
Misfit gang gang
You know how we move it, woo! (gang gang gang)
They ask us how we do it, woo!
Misfit gang gang
You know how we move it, woo!
