

Women of the Night (feat. Half Pint)

Stick Figure

Women of the night, yeah
They're everywhere in sight, yeah
It's two in the morning don't do me like that, yeah yeah Well I'm just passing by you
Not here to satisfy you
You try to flag me down on my way through town, yeah yeah And you will live and you will
learn
And under pressure, yes you will burn
You shall forever, yes control your destiny now Only thinking of your prices
Not what you're sacrificing
It's two in the morning, please leave me alone I can hear you calling
I can hear you falling
Mixed up with the wrong interpretation
The day will come and you will know
One day the stars will meet the moon
You shall forever, yes control your destiny now She say, when something feels so good it can
hurt so bad
Just for a little love making on the side you sure got to pay the price
It was pain and pleasure, rain and sunshine
Tears of joy, making sacrifice to give you what you like
Women of the night
Lady of the night
Women of the night
Come see about me
She's a lady, still a lady
Lady of the night, come do me right Well I don't wanna lose you
Well I don't wanna school you
It's two in the morning don't do me like that, yeah yeah
I know there's no use in trying
I know you's confused, you's crying
I got this old question and I'll sing it to you Women of the night
Lady of the night
Women of the night
Come see about me Special occasion, sweet sensation
You give it to me with a rocking vibration
But a natural revelation
Exploring each other with satisfaction
All I ask of you tonight is to be true, is to be true
To the world
