

# This Love Is True

[NRBQ](#)

A love that's all to us / a love we give in trust / a love that means so much / this love is true  
Sometimes at night / when the sky wants to cry / you come to me / and the clouds all seem to  
pass me by

Sometimes it's hard to find / a true and trusting kind / a love like yours and mine / this love is  
true

All through our lives / there were dreams come and gone / but our love survives / it's a love that  
will go on and on And when we're all alone / and when the day is through / these words I say to  
you / this love is true

And never has a tender touch / meant so much / and I know a love that's true / will last our  
whole lives through And there's one thing I know / my heart it tells me so / I whisper soft and  
low / this love is true

And when we're all alone / and when the day is through / these words I say to you / this love is  
true
