

# Love Can Kill

## Lennon Stella

[Verse 1]

I wasn't thinking when I told you to stay  
It was just too hard to push you away  
You don't know that you're in over your head  
I'm afraid I'll pull you over the edge[Chorus]  
I need you to go, don't fight me  
Even though I wanna hold on tightly  
Let me go, but you won't let me go  
Too much love can kill, get swallowed by the weight  
No matter how you feel, my love, you are not safe  
With me[Verse 2]

It's hard for me to say what needs to be said  
Hurts to say it over, over again  
Consequence of loving, we can be cruel  
You're gonna suffer now, whatever you do

[Chorus]

I need you to go, don't fight me  
Even though I wanna hold on tightly  
Let me go, but you won't let me go  
Too much love can kill, get swallowed by the weight  
No matter how you feel, my love, you are not safe  
With me
